Local Chamber Distribution of Masks

Do Your Part: Help Stop the Spread

- Anyone could be a carrier of COVID-19 and not know it.
- You play a role in protecting the community against COVID-19.
- This mask will help reduce the likelihood of you spreading the virus to others.
- This mask does not replace the N95 used in healthcare settings and should not be used when caring for those with COVID-19.
- This mask is one way to combat the virus. Social distancing, handwashing and other CDC recommendations should also be followed.
- Fabric touching skin: 100% cotton. Mask contains silver and copper.
- If skin irritation occurs, immediately stop using the mask. If irritation persists, consult your primary care provider.
- Be mindful when wearing this product if you have lung disease, like emphysema, or chronic heart disease. Stop using this product if you notice difficulty breathing while wearing it.
- Machine wash warm up to 15 times before discarding. Tumble dry high. Do not use bleach, chemicals or disinfectant to wash this product.

WARNING

To avoid suffocation, keep this plastic bag away from babies and children.
Do not use this bag in cribs, beds, carriages or play pens. This bag is not a toy.

Local Chamber Relaunch Florida Alignment

Aligning national, state and local guidelines for reopening Florida in a strategic way that ensures the safety of all Floridians.

**White House
guidelines to
reopening America
(3 phases)**

**Gov. DeSantis /
State Level**

**Local
Framework**

The Local Framework Must Expect a “New Normal”

Until a vaccine and/or treatment becomes widely available, expect a number of social and economic changes

- Social distancing continues
- Remote work continues for many
- Employees are tested for fever before entering office
- E-Commerce expands
- Supply chains gradually shift to domestic
- Large gatherings of non-family groups will require health precautions

Governor DeSantis' Task Force to Reopen Florida: What Others Are Saying

Tampa Bay Times

The 90-minute meeting Monday of the group led by Gov. Ron DeSantis and the **Florida Chamber of Commerce** focused on statistics about the state economy and business leaders thanking DeSantis for his "thoughtful," "decisive" and "proactive" leadership.

THE BIRMINGHAM HERALD

Other task force members suggested businesses that could conduct activities while practicing social distancing within offices and work spaces could be the next to get the green light.

FLAPOL

The state's reopening would require a "surgical" response, **Chamber President and CEO Mark Wilson** said,

Pittsburgh Post-Gazette

Chamber president and chief executive Mark Wilson said the task force recommendations will have an impact beyond Florida.

The Wichita Eagle

"We need to get the economy back in a safe way," DeSantis said, and "give people (the) confidence they're going to be able to participate in the economy."

San Antonio Express-News

DeSantis, a Republican, on Monday announced a "Re-Open Florida Task Force"

The Washington Post

Chamber President and chief executive Mark Wilson said the task force recommendations will have an impact beyond Florida.

"The whole world is watching us," Wilson said. "They're looking for your recommendations, and my hope is that other states and other nations will look to... Florida's restart as not only a national model, but as a global model."

Miami Herald

Chamber CEO Mark Wilson, the first speaker after DeSantis, spent 10 minutes talking about Florida's pre-coronavirus economy and which jobs are most at risk during the shutdown. "If Florida was a nation, we would be the world's 17th-largest economy," Wilson said. "And our goal by 2030 is to be the 10th-largest economy, and we hope you'll keep that in mind as you think about your recommendations."

News 4 JAX

The chamber's chief economist said an optimistic projection is that Florida's gross domestic product will take a 2.3% hit and should come back by the end of the year. His pessimistic projection is an 8.9% dip in GDP and it could take four years to recover.

10 NEWS

Gov. DeSantis announced last week the creation of a Re-Open Florida Task Force. It's a group of politicians, medical professionals, business leaders and education experts whose goal is to strike a delicate balance between getting Floridians back to work and keeping them healthy.

THE SACRAMENTO BEE

"We're going to need a very surgical approach to reopening Florida," **Wilson** said.

Why the real unemployment rate is likely over 11%

PUBLISHED TUE, SEP 8 2020 1:04 PM EDT | UPDATED 24 MIN AGO

Greg Iacurci
@GREGIACURCI

SHARE

KEY POINTS

- The official U.S. unemployment rate fell to 8.4% in August, from 10.2% in July.
- That number may significantly understate the true rate, however, according to some economists. The real figure may be higher than 11% when accounting for various factors.
- That would mean the country is still in the throes of an unemployment crisis worse than any time in the post-second World War era.

Employment Change by Wage

Percent Change in Employment*

In **Florida**, as of July 15 2020, employment rates among workers in the middle wage quartiles decreased by **2.3%** compared to January 2020.

BE PART OF THE SOLUTION

What is the Under 18 Poverty Rate in Your County?

The Florida Chamber Foundation's Prosperity Initiative is uniting Florida's business community to implement long-term solutions that provide economic opportunity for all Floridians, regardless of what zip code they live in.

As we work toward our goal of reducing the number of children in poverty to less than 10% and creating pathways to prosperity for 100%, it's important we know where to best focus our efforts.

870,505 children live in poverty in Florida. How many of these children live in your zip code?

The Florida Prosperity Initiative is looking at private sector best practices at the zip code level so we can learn from one another and help plant the same seeds in other zip codes.

Race/Ethnicity & Poverty Rates in Florida

Florida's poverty rates differ greatly along racial/ethnic lines, with minority groups noticeably more likely to fall below the poverty level.

This is particularly true for Florida's Black and Hispanic citizens. Black Floridians are more than twice as likely to live below poverty level than White Floridians.

More Local Business Lawsuits... You Know They're Coming

June 1, 2020

Dear Florida Congressional Delegation:

As leaders of the business community's efforts to relaunch Florida's economy, the undersigned chambers of commerce in Florida urge Congress to pass timely, temporary and targeted liability relief legislation to provide businesses a safe harbor from unwarranted lawsuits. If left unchecked, the building tsunami of COVID-fueled litigation will endanger the fight against the pandemic and undermine the safe and orderly return to work for millions of Americans.

Businesses have innovated to provide much needed supplies during the pandemic, such as distillers producing hand sanitizer or manufacturers switching their operations to produce personal protective equipment. During the stay-at-home order, essential businesses remained open and were the front lines in providing critical services and supplies. Now millions of other businesses are in the process of reopening, desiring to do so in a safe manner that protects their employees and customers.

This is an unprecedented situation and despite employers' best efforts to comply with all the public health guidance, many are concerned that opening their doors only means they will be forced to defend themselves against an onslaught of frivolous lawsuits. Their concern is driven by the fact that each day brings news of more lawsuits that have already been filed. That is why Congress should provide a safe harbor that holds truly bad actors accountable, but that protects those employers who are working to follow public health and safety guidelines as we relaunch our respective state and local economies. Specifically, temporary protections should remain in place for the duration of the pandemic crisis and response that cover:

- Businesses that work to follow government guidelines against COVID-19 exposure claims.
- Healthcare providers and facilities on the front lines of the COVID-19 response.
- Manufacturers that repurposed production and distribution to provide PPE, sanitizers, and other needed equipment and supplies.
- Companies that have donated their stock of supplies to hospitals and medical professionals.

Thank you for your consideration of these lawsuit abuse reforms that will allow American businesses to reopen safely and without the fear of lawsuits when trying to do the right thing in response to COVID-19. Your bipartisan leadership on this issue is needed to ensure Florida emerges from the pandemic as quickly and strongly as possible.

Sincerely,

Amplify Clearwater
